Enrichment Programming

"Discovering talents and hobbies while awaking a whole new world in our children's lives."

Sponsored by Eaton Early Learning Center 25 S Cottonwood Ave Eaton CO 80615 970.454.9400

February 2010

What Is the Enrichment Programming?

We would like to take this opportunity to share with you what Eaton University Enrichment programs are and what our plans for future programming are.

The enrichment programs are a variety of month long programs that give our children opportunities to try something new, enrich their lives and participate in classes that tap into an interest, known or maybe unknown.

Each month we will offer new programs. Most clubs will meet 2 times a week throughout the given month. There are times that we will have a club that requires a different schedule, please look at the dates and times as registrations are sent home.

What are the Fees for the Clubs? Are there Scholarships Available?

It is our intention to make the fees for these programs reasonable. The fees for the clubs vary depending on supplies needed and amount of times the club meets. We did receive a grant that will help cover the cost of supplies for many of the clubs for the remainder of the year.

There are scholarships available for those who are interested. The scholarship form is always on the back of the registration form. If you are interested in a scholarship please fill out the form and we will contact you regarding your request. Please remember we offer 1 full scholarship per family per semester. Partial scholarships are also available.

Who Teaches the Clubs?

You will find teachers, community members and professionals who are willing to share their talents, loves and interest with our children. Periodically we will bring in professional organizations to run specific clubs. We are always looking for new club ideas and people to teach. If you are interested in teaching a program please call Nina Lewis or the Eaton Early Learning Center.

Remember we all have talents to share! It is so rewarding to see a child light up when they learn something new! Please consider sharing your gifts.

How does Registration Work?

Registration for the clubs takes place on a monthly basis. Registration forms will be sent home the 3rd week of the month and will be due back the last week of the month. Registrations are taken on a 1st come, 1st serve basis. The forms are to be returned to the school your child attends, they will be picked up from there. We will do our best to accommodate every registration, we will create waitlists when a program is full and will do our best to offer the club again. If you do not hear from us your child is in the club your registered for. We will call you if your child is on the wait list or if we are creating a 2nd club to accommodate all students.

Summer Enrichment & School Age Programming

We will be offering a variety of **2010 Summer Enrichment programs**. These clubs will meet twice a week at Eaton Early Learning Center for an hour or 2 depending on the club. We will have a variety of morning and afternoon classes. Clubs will be open to next years 1st -5th graders. Please see the attached survey for the clubs that we are working on. We will be sending home registration forms in April for our summer clubs.

Eaton Early Learning Center will continue to offer the **All Day Eaton University Program**— a program full of educational programming for those who need care all day. This program will run from 7:30am-5:30pm for Kindergarten-5th grade aged students. Eaton University children will have the opportunity to participate in the enrichment programs for their additional fee.

NEEDED:

We are taking donations of old digital cameras and laptops that are in working condition. These items will be used for a computer and photography club!

Contact Information

If you have questions, would like to teach a club or need more information please contact Nina Lewis at 970-371-2401 or call the Eaton Early Learning Center 970-454-9400. You can also check out EEC webpage for more information www.eatonelec.com
